

1. . Standard and Actual Cost for Direct Material and Direct Labour incurred by Noman Ceramics Company are as under:

STANDARD COST	ACTUAL COST
Direct Material 10,000 units @ Rs. 15	Direct Material 10,050 units @ Rs. 14
Direct Labour 15,000 hours @ Rs. 60	Direct Labour 15,200 hours @ Rs. 65
Factory Overhead 80% of Direct Labour	Factory Overhead Rs. 750,000

REQUIRED:

- **a.** Material Price Variance, Material Quantity Variance and Total Material Variance.
- **b.** Labour Rate Variance, Labour Efficiency Variance and Total Labour Variance.
- **c.** Factory Overhead Variance.

Based on the image provided, here is the converted text for the cost accounting problem regarding **M/S. Ali Ltd.**

8. (Standard Cost v/s Actual Cost)

The following data pertains to M/S. Ali Ltd.:

	Standard	Actual
Raw Material	5000 units @ Rs. 10 per unit	5200 units @ Rs. 9 per unit
Direct Labor	600 hours @ Rs. 100 per hour	570 hours @ Rs. 120 per hour
Factory Overhead	100% of Material Standard Cost	Rs. 48,000

REQUIRED:

- **i.** Total Material Variance, Material Price Variance & Material Quantity Variance.
- **ii.** Total Labor Variance, Labor Rate Variance and Labor Efficiency Variance.
- **iii.** Overall Factory Overhead Variance.

2. Namllih Ltd: Production Data (August 2008)

Activity Type	Planned (Budgeted)	Actual Results
Units Produced and Sold	1,500 briefcases	1,125 briefcases

Standard and Actual Cost Data

Cost Element	Standard Data (for 1,500 units)	Actual Data (for 1,125 units)
Direct Materials	1,400 m ² at \$2.10 per m ²	1,210 m ² at \$2.05 per m ²
Direct Labour	2,460 hours at \$4.20 per hour	1,800 hours at \$4.10 per hour

REQUIRED

(a) Calculate:

- **(i)** material price variance
- **(ii)** material usage variance
- **(iii)** total materials variance
- **(iv)** labour rate variance
- **(v)** labour efficiency variance
- **(vi)** total labour variance

3. Angelicus and Co. Financial Results

For the year ended 31 March 2003

Description	Domestic	Commercial	Industrial	Total
Sales (units)	120,000	45,000	56,250	221,250
Sales (total value)	\$000	\$000	\$000	\$000
	240	180	450	870
Total costs				
Direct material	108	66	84	258
Direct labour	60	30	150	240
Variable overheads	24	54	120	198
Fixed overheads	54	33	42	129
Profit (loss)	?	?	?	?

REQUIRED

(a) For the year ended 31 March 2003 calculate, for each type of lock,

(i) the contribution per unit;

(ii) the contribution as a percentage of sales.

(b) Calculate the break-even point for each type of lock in both units and dollars

4. Calculation for Each Type of Refrigerator

Description	Household	Business	Factory	Total
Sales (units)	2,400	900	2,250	5,550
	(\$)	(\$)	(\$)	(\$)
Total sales value	240,000	108,000	360,000	708,000
Total costs				
Direct material	96,000	45,000	112,500	253,500
Direct labour	72,000	28,800	94,500	195,300
Variable overheads	24,000	13,500	45,000	82,500
Fixed overheads	57,600	27,000	67,500	152,100

Description	Household	Business	Factory	Total
Sum of Costs	249,600	114,300	319,500	683,400
Profit (loss)	(9,600)	(6,300)	40,500	24,600

REQUIRED

(a) For the year ended 31 March 2003 calculate, for each type of lock,

(i) the contribution per unit;

(ii) the contribution as a percentage of sales.

(b) Calculate the break-even point for each type of lock in both units and dollars
